COLLECTED TREES, SHRUBS AND VINES.

This is the first season in three or four years that we have offered collected stock. We list it now because we have so many calls for collected material and because it is very difficult to obtain some of these items in these grades in nursery grown stock. This season we are going to dig collected material only on orders. We will not have a surplus on hand. This means that your orders will be filled with freshly dug stock. In ordering please bear this in mind and place your order as early as possible so we can have time to have it collected. Note the especially attractive prices.
